HEAT KILLS FOUR, CAUSES A SUICIDE

Downpour and 60 Miles an Hour Gale Bring Brief Respite to City.

In which the heat played a part, and enty-one prostrations were reported day. In addition there was the usual increase in the number of cases of sick-something. by the police of the greater city yester

the heat were Charles Grebe, 49, a baker of 72 West 197th street, and John Subject, 45, of 718 Fifth avenue, Brooklyn, who died suddenly while working in a stable at 220 Twenty-third street, Brooklyn, James Nolan, a laborer, 29, of 70 (Hanson place, hanged himself in a stable at 4 Steuben street, Brooklyn, while crazed with the heat.

unfortunates in the street as being a cyclone, but which officially was only a "summer squall." The thunder stopped growling at 5:32 and at 5:45 the rain stopped. For all the cyclone on Monday.

Some time after he has recovered from "those very tedious court proceedings." as he said. Thaw is going to the first the rain stopped.

The climb began a little after 6 A. M., when the mercury slid up from 71 to 74, then 76, and at 9 o'clock it stood at 81 legrees. From that time on it rose a legree or so an hour until the maximum was reached. Fifteen minutes after the storm stopped the thermometer had re-gained seven degrees of the ground it had lost through the storm. seven degrees of the ground it

to be the northern limit of the storm, which covered the lower part of the city and the beaches pretty thoroughly and passed out to sea past Sandy Hook just an hour after it left the Battery. The heat and the half holiday had packed the beaches and as usual the crowds paid no attention to the black clouds, but made for shelter all tegether at the minute the rain started falling. No injuries were reported from the scurrying, a fact partly attributed to the massing of policemen at the West. End and Culver depots, the two big terminals at Coney Island and the centres of the greatest engage and the content of the black and the half holiday had been creditors. It shaws to sages and the morning papers, which he sages and the morning papers, which he lack at the morning papers, which he lack all the beaches and the battery, and to take John D. Gleason, and after him Judge Deimas, still seems to anger a few decadents.

"I can see no other reason for some petty malice being displayed in print. This malice certainly is not felt by any of the honest people I meet around the country. On every hand I find only the greatest kindness. It seems very unfortunate that simply because to him a year, but you can't school him."

That was probably the only man at Alaunt City who welcomed the heavy train late this afternoon. It freed him from the photographers for almost the up matters after my arrest nine years ago some persons should still show the since he became a target for almost the battery that the replacement of the preferential payments. minals at Coney Island and the cen-tres of the greatest crush when rain their spite.

of the bathers stayed in the water and enjoyed the storm.

Freaks of the Storm.

The storm played some freak tricks, one or two of which were pretty serious. Charles Rabey, a conductor on a Flushing avenue surface car, was standing on the running board collecting fares in Sands street when a particularly sharp flash of lightning stunned for an instant the passengers on the car. When the momentary fright was over they saw that Rabey had fallen from the running Hospital unconscious and the physicians said that his right side had been para-

A case of mental derangement due to the heat was reported just after dusk from 137th street and the Hariem River, where Tony Bruno, 48, a laborer, was found on a barge which he had untied from a wharf and in which he was vainly trying to get back to Italy to join his family. A policeman crawled out over other barges and got the man ashore and sent him to the Lincoln Hespital.

Street ferry trolly line as well.

The drawbridge over Coney Island Creek was responsible. This bridge, used only a few times a year, was pulled up last night when the beach bound traffic was heaviest for a tug pulling a barge, which had been waiting at one side of the bridge for some hours, to pass through. The bridge was raised all right, but after the tug and barge had gone on their way it wouldn't go back in place again.

After Watting a while way it wouldn't go back in place again.
